

US006141625A

United States Patent [19]

Smith et al.

[11] Patent Number: 6,141,625

[45] Date of Patent: Oct. 31, 2000

[54] VISCOSITY MODULE WITH CRYSTAL RESONATOR-TYPE SENSOR

[75] Inventors: Ronald L. Smith, Troy; Mark Lovik, Chatham, both of Ill.

[73] Assignee: Dickey-john Corporation, Auburn, Ill.

[21] Appl. No.: 09/090,363

[22] Filed: Jun. 4, 1998

Related U.S. Application Data

[63] Continuation-in-part of application No. 08/871,272, Jun. 9, 1997, abandoned.

[57] ABSTRACT

A portable viscometer includes an instrument body having an electrical control circuit disposed therein and sensor probe for immersion into a fluid to be analyzed. The sensing probe includes a crystal resonator-type sensor and a temperature sensor that provide sensing signals to the electrical control circuit indicative of fluid viscosity. The resultant viscosity is displayed and/or stored.
